The engine since v11.282.2

- fc95bd854 The choice at the title is not a gender: five lines that said son or lassie

The design and tools since v11.282.2

- 796391db v11.283: an audit of what was adopted and never built
- 2da55a47 ROM release v11.282.2: the WARDEN's TOKEN

An audit of what was adopted and never built

- *The WARDEN's TOKEN (T-260): 8.6 adopted it and vanilla's GOLD TEETH were still in the game — the item, its description, four lines, and a key fob drawn by `tools/gentoken.py`. THE HOLDOUT, the SAFARI ZONE's proposed name, is left for the user.*
- *The choice at the title is not a gender (9.10 corrected): five scripts still called an INSTINCT player a girl and a REASON player a boy — each pair now says one thing, and `check_lexicon` fails any branch that does not, beyond the four VOICE pairs written on purpose.*
- *8.6's "Ty is not in the ROM" is no longer true (T-261): T-19 put him in the warehouse; whether the post-game triangle is still owed is the user's.*
- *The missing key signature, proposed for a grove (T-10): BRAZEN's maze was approved as it is, and the source has a tree sing the song.*
- *4.35's heading said "built nowhere"; the school has been built since 2026-09-22.*
