The engine since v11.338.3

- `628294977` T-519 item 2 (6/6): DEBUG -> GAME EVENTS -> THE EUDAIMON LAYER gives or takes the dawn half (its flag and the book)
- `dfe8c3f22` T-519 item 2 (5/6): the nudge -- with the dawn half held and not the night half, in the witching hour, the first step outdoors says one purple line, once in the hour (one IWRAM byte), not in play's first minute. DRAFT
- `f57b761fa` T-519 item 2 (4/6): the gate removed -- THE HERMETIC LAYER is found at OSRIC HATTER's house at any hour, needing no other book (he hands it over at the end of a talk); the witching-routine unlock with the GUIDE and THE SUBTLE LAYER held is gone. DRAFT
- `545de140f` T-519 item 2 (3/6): the LARK under the singing FIR in the creator's hour -- beside the fir in all fourteen groves (FLAG_TEMP_1 hides her outside 4:24-5:12 or once given); sit with her and wait ten seconds, no button pressed, and she gives the dawn half. DRAFT
- `04387ca68` T-519 item 2 (2/6): THE EUDAIMON LAYER, the book -- ITEM_EUDAIMON_LAYER (was ITEM_0F9) and FLAG_GOT_EUDAIMON_LAYER (0x900 + 0x3FF), a third layer book in book_reader.c, opened from the bag at any hour, read only; BLESSING's observer line printed by the lead daemon's SPIRITS; no CARDS tile yet. DRAFT
- `059cc0e69` T-519 item 2 (1/6): THE EUDAIMON LAYER generated -- DAEMONS tools/gensubtle.py --book eudaimon writes src/data/eudaimon_layer.h (10 sections, 52 entries; the observer line's three readings, by SPIRITS class), a placeholder cover, picture and bag icon in the night half's style, recoloured for dawn. DRAFT

The design and tools since v11.338.3

- `c94c64fc` TODO: T-519 the dawn half (engine 059cc0e69..628294977)
- `930501b4` T-519 item 2: THE EUDAIMON LAYER, the dawn half -- gensubtle makes src/data/eudaimon_layer.h in the night half's format (the observer line '% good | as is | low' as three readings by the lead's SPIRITS, each measured; placeholder dawn cover, picture and icon); companion_export gives eudaimon.json its flag; check_lexicon reads 'a EUDAIMON' as said 'you'; the book's pages filed (qa 5Nov2026 T519 1-2)
- `5563253b` docs: the manual reprinted for v11.338.3
- `4d39cac1` ROM release v11.338.3: PLAY made playable -- the button strip, and the seven songs re-taken from the user's recordings (T-521)

The design bible's own entry for v11.338

v11.338 — 2026-11-02

- **4.40 THE UNITY BOOK (T-519, the user).** The third book is torn at the spine into THE HERMETIC LAYER and THE EUDAIMON LAYER. They are one book, read from the night side and the dawn side, opening with a warning, a blessing and an attestation. The thirteen spells are the same in both, and the dawn page names each cost as a gift. Only the thirteenth differs: THE WITCHING HOUR, THE CREATOR'S HOUR, THE HORIZON. The halves are mended at DAEMON TOWER, and BALANCE is written between them. OSRIC HATTER read the night half; a LARK read the dawn half.
- **4.40 SPIRITS.** Every daemon drifts between EUDAIMON, DAEMON and KAKODAIMON (in good spirits, as it is, in low spirits), nudged by four kinds of event (KEPT, BOND, WORK, PORTION) and stored in 4 bits. It shows in tone, never hue, with an evolution-like screen at each crossing.
- **Reversed: HALFTONE's town comes back into colour** once the book is mended, and greys again only in the night's hour.
- **1, said DAY-mons.** The frightening word is never written anywhere a reader sees, and whatever is spoken is respelled daymon(s) first (C-270).
- **0.1's exception** now names the torn book, not the gate. 4.39 points to 4.40.
