DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	6b5b206aeabd5d1a6199b81fa0b0298a3130cb93

The engine since v11.290.8

- `afab773dd` T-317: understanding shown in the world, as a faded print (the user's choice, 2026-10-02)

The design and tools since v11.290.8

- `4586e127` Bible v11.291: the world shows understanding as a faded print (T-317, the user's choice), and seven UNDERSTANDINGS with no eighth (T-252) -- both closed
- `224a9452` qa: the 2026-10-02 pictures -- T-346, T-347 played, T-337's fix, T-340/T-341 played, the hints seen in play, T-317's designs
- `306d1201` ROM release v11.290.8: the leaders say the virtues aloud and CALLOW hears its door (T-346), the CHECKPOINT attendant's dreams (T-347), the grove tell out of the water animation (T-337) -- and the Rev 1 patches proved on the user's own carts (T-344)

The design bible's own entry for v11.291

v11.291 — 2026-10-02

The world catches up as you understand it, and seven is the number (2026-10-02)

- *The world shows understanding as a faded print* (T-317, the user's choice of three mock-ups): every tileset colour drawn 40% of the way to its own grey while four or more understandings are still to come, 18% while one to three are, as painted with all seven. People and daemons keep their colour. Built and played the same day.
- *Seven UNDERSTANDINGS, and no eighth* (T-252, the user).
- *Built the same day, released in v11.290.8: the leaders say each MARK's virtue aloud and CALLOW hears its door (T-346); the CHECKPOINT attendant's dreams for a player who is stuck (T-347); the patches proved on the user's own carts (T-344).*

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM_RELEASE/HOW_TO_PATCH.md`.

patch	apply it to	that ROM's SHA-1	tested on
