- `ca744f3d6` T-519: the third book's pictures, batch 4 -- the last 68 entries get their own picture: THE HERMETIC LAYER 23 (52 of 52 entries now drawn), THE EUDAIMON LAYER 23 (52 of 52) and THE UNITY BOOK 22 (55 of 55); no entry shows the frontispiece in its place any more. Nineteen were redrawn before going in: OLD WORK, OLD WORDS and PHILOSOPHY as four large objects on two shelves; ROOM's arch upright and stepped aside, the mended one with an animal bowing; CONTRAST (dawn and mended) as a clock face at rest and two halves sewn together; WHAT IT DOES as a cupped hand; KINSHIP's small hands; the mended VOWS tied in a bow; THE VERB's hand reaching down; SEAM's scissors; BOTH WAYS' rain cloud; the dawn LAST WORD's dusk sky; CREATOR's sleeping lark; FIELD's passing daemons in all three; the mended SMALL HAND on the gate. Each picture is 96x88 in its book's own sixteen roles. ROM +288,320 bytes (68 frames of 4224 bytes and their table rows), the same in all four builds. No RAM or save cost. - `4a2dd7b0` ROM release v11.341.2: SPIRITS on the follower and party icons, and 76 more of the third book's pictures (T-519, DRAFT)

The engine since v11.341.1

- `4c0a300f8` T-519: the third book's pictures, batches 2 and 3 -- 76 more entries get their own picture: THE HERMETIC LAYER 24 (29 of 52 entries now drawn), THE EUDAIMON LAYER 24 (29 of 52) and THE UNITY BOOK 28 (33 of 55); the rest still show their book's frontispiece. EVERY FOLD, the dawn half's UPPER FOLDS and LET GO are redrawn before going in: small hands that read as hands, the opening hand as one hand, a palm-down hand letting go. Each picture is 96x88 in its book's own sixteen roles. ROM +315 KB (76 frames of 4224 bytes and their table rows). No RAM or save cost. Written by DAEMONS tools/gensubtle.py. DRAFT
- `20e9f8d42` T-519: SPIRITS' tone on the follower and the party icons -- a daemon in good spirits walks and sits in the party menu lighter (10/32 of the way to white over its own colours), one in low spirits darker (10/32 to black), never a change of hue. The follower's palette is toned after friendship's saturation and before the field's light, the weather and the hours (the creator's gold, the witching shimmer), which all reload it, so they go on over the tone; a crossing re-tones it within eight frames. A party icon shares its colour group's palette, so as AWAY's wash does, a toned one is pointed at a toned copy (one per group and tone, tags 56032+); AWAY's wash wins, and with no palette slot free the icon keeps its colour. The PC's box icons are left as they are: its sixteen OBJ palettes are spoken for. IWRAM +1 byte (sFollower), EWRAM 0, ROM +160 bytes of code. No save cost. DRAFT

The design and tools since v11.341.1

- `e74591c5` TODO: T-519 the books' pictures, batches 2 and 3, in the game and the companion; SPIRITS on the follower (engine 20e9f8d42, 4c0a300f8)
- `1d64000a` T-519: the third book's pictures, batches 2 and 3, in tools/thirdbook_art.py's PICTURES (engine 4c0a300f8, not pushed)
- `fae53b89` qa: T-519 SPIRITS' tone on the follower and the party icons, filmed (engine 20e9f8d42, not pushed) -- as it is, lighter in good spirits, darker in low, the creator's hour's gold over the low tone, and the party menu with one in each state; route tools/routes/t519_spirits_tone2.json
- `6f2bd70b` T-519/C-299: the dawn half and THE UNITY BOOK recorded and sealed, each by its own book's key (the user, 2026-11-05)
- `a4f6f407` T-519: THE UNFOLDING's SPACE gets its own picture key, space (it shared room with THE WHEEL's ROOM; the game lane)
- `02a179d9` T-519: the dawn half and THE UNITY BOOK sealed in docs/books like the vault (the user, 2026-11-05)
- `71f03599` ai/n8n: daemon/talk is told how the daemon speaks of itself, after its INDEX entry (companion C-303, T-522; not pushed to n8n)
- `eaf16c90` ROM release v11.341.1: T-519 the third book's art -- the chosen covers, frontispieces, opening pictures and icons (DRAFT); v11.340.x sealed

The engine since v11.340.3

- `4d40b097f` T-519: the third book's drawn art -- THE HERMETIC LAYER, THE EUDAIMON LAYER and THE UNITY BOOK each get the user's chosen cover (night V4, dawn V2, mended V2), a drawn frontispiece, the five opening-section pictures (handturning in two frames) and a drawn bag icon; every later entry shows its book's frontispiece until its own is drawn. The dawn half's boards are sapphire (C_SLATE, C_CHALK_FAINT, cover and icon only), and the night half's pictures keep C_EDGE_DARK apart from the breathed backdrop. Written by DAEMONS tools/gensubtle.py. DRAFT

The design and tools since v11.340.3

- `3bc67dcf` TODO: T-519 the third book's art built (engine 4d40b097f)
- `92c987ba` qa: T-519 THE HERMETIC LAYER's drawn art, filmed (cover, WARNING, the frontispiece)
- `5a3eb6a0` T-522: every daemon's telling written -- 397 in docs/index-spoken.md, MISSINGNO has none (DRAFT)
- `f3c51c23` tools: gensubtle writes the third book's drawn art -- the chosen covers (bundled in tools/thirdbook_covers/), frontispieces, opening pictures and icons from thirdbook_art; the dawn half's boards sapphire (T-519, engine 4d40b097f)
- `6548bfdb` TODO: T-519 the books' art, the user's picks (night V4, dawn V2, mended V2)
- `68a5b7ac` T-519: THE UNITY BOOK approved as drafted (the user, 2026-11-05, after the three readings side by side)
- `4f708624` T-522: each daemon tells of itself, in the companion only -- 154 tellings, bible v11.341 (DRAFT)
- `c098565d` TODO: T-522 claimed -- each daemon's first-person telling, companion only (WIP)
- `be6b7d87` tools: thirdbook_art.py, draft covers, icons and pictures for the third book's three forms (T-519)
- `8553aa59` ROM release v11.340.3: the mended town vivid in THE CREATOR'S HOUR, and THE UNITY BOOK's cards (T-519, DRAFT)

The design bible's own entry for v11.341

v11.341 — 2026-11-05

- **4.2, the record says it and the daemon says I (T-522, the user, by multiple choice: "App only, spoken").** The game's INDEX stays in the third person: it is the instrument, and an entry that says "I" would hold the thing 4.2 says it cannot. In the companion, on its own page, a daemon tells of itself in its own voice (C-303, C-251): one telling per daemon, the same in both editions, written in `docs/index-spoken.md` and never built into a ROM. A telling says only what the daemon could know from inside, names no feeling, does not know there is a record, and does not accuse whoever carries it. MISSINGNO has none. Every word DRAFT.
