The engine since v11.288.4

- 58c587134 T-293: twelve daemons' streaks were never switched on; DARIO follows PSYCHIC F again

The design and tools since v11.288.4

- 26d8b710 T-293 closed: ten generators brought level, fourteen refuse to undo later work
- 28ee0835 T-292 closed, T-293 opened (bring the stale generators level); engine.md trap 34 points at --writes
- 8a794940 check_generators --writes: every tool's write, for real, in a sandbox; generator_drift.json records the 24 whose write would change committed files, and why (T-292)
- 5eb8e52c ROM release v11.288.4: PROTEUS drawn as ours on THE ANNEX; the overworld daemons' true-black outline

The engine since v11.287.7

- *nothing: the same engine commit as the release before*

The design and tools since v11.287.7

- 75c5d3ac v11.288: The Folds of Awareness cited as 4.33's second source; FOLDS placed (T-285); Scorn's doorway (T-284); Ty's approach asked (T-286); engine.md trap 33
- b7450208 ROM release v11.287.7: Scorn out of the warehouse doorway; LOOSE PAGES 7 (DRAFT)

The Folds of Awareness, and a door nobody could walk through

- *A second source for the one daemon* (4.33; lineage.md 5, 4.6): the user's essay *The Folds of Awareness* (Seeing Sharp, September 2025) — one sheet of awareness folded and never cut, a great hand and many small ones, and free will left unanswered, which is 4.33's own rule. Its order is what is new: change (time) before space, a binding fold, the mirror, pattern, the return. Where it already sits in the game — the watches and the week, BIND, PERSPECTIVE, DOLDRUM read and unread, T-188's choice — is written down, and none of it was placed on purpose.
- **LOOSE PAGES 7, FOLDS** (DRAFT, T-285): folding instructions pinned where the Condominiums 3F's lower painting hangs, six steps and a half, every one only paper; not the scientist's, so THE TEST in 4.33 still holds.
- **Scorn stood in the only doorway to Ty's room** (T-284): placed 2026-09-10 "five tiles from Ty and facing him", on the one tile into the Rocket Warehouse's last room, so the PAYLOAD — and CRYSTAL's ending after it — could not be reached in play for fifteen days. He now stands on Ty's own row, five tiles off and facing him, in the room's alcove. Found by tools/check_reach.py, new: it walks every map from where a player arrives and reports what we made unreachable against a pristine upstream. It also moved CORRESPONDENCE 2's reserved spot off a wall the CONDOMINIUMS 3F's Designer seals off, to the roof room's bookshelf.
- **Ty's approach walks onto the player** (T-286, asked): after the battle he steps down into the only tile you can talk to him from.
