The engine since v11.301.9

- `73d5a7f4b` T-407 (the user, 2026-10-16): NATIVE replaces the size comparison on the INDEX area page -- region, and edition, hours and seasons when a daemon keeps to some; a grove's universe once seen (tools/gbanative.py). Every word DRAFT
- `bb86b6fc5` SCORN's gym echoes him (the user, 2026-10-16): its eight trainers' daemons all carry UPHEAVAL / DISCHARGE / FREEZE / RADIATE in his order -- one streak through the building, with his hole (T-413)
- `81c5f790e` T-407 (the user, 2026-10-16): season and hour homes on the early roads -- on 15 roads up to the fourth MARK one 20% grass slot belongs to the season and one 10% slot to the hour (dawn, dusk, night), 105 rows per edition, 61 daemons new to the pre-League game

The design and tools since v11.301.9

- `5bb46c3f` companion_export.py (companion 295cb74): species' native, from gbanative
- `fe8b946e` T-407 (engine 73d5a7f4b): tools/gbanative.py, NATIVE on the INDEX
- `c2c132be` T-407 (engine 81c5f790e): the season and hour homes built -- tools/gbashifts.py writes wild_shifts.h; gbareach, check_reach and plan_global_index read it
- `4d3d4829` TODO: T-407's line replaces the size box (the user, 2026-10-16)
- `4120f4a1` TODO: T-407's season and hour homes decided (the user, 2026-10-16)
- `ee7bef6f` ROM release v11.301.9: the glitch on MISSINGNO's encounter (T-414)

The engine since v11.301.8

- `5aa2115c3` The glitch on MISSINGNO's encounter (the user, 2026-10-16): wild or scripted, the screen tears before the battle begins; DaemonsGlitch_Start lets a non-script caller run it

The design and tools since v11.301.8

- `900b3804` T-414 (engine 5aa2115c3): the glitch on MISSINGNO's encounter
- `0d606e87` qa: the BOX-3 speaking with checked mouths (companion C-138)
- `f6a0161a` ROM release v11.301.8: the fir in B-flat with the painting's colours and MUS_NEXUS with it (T-409), SCORN's converged party (T-413)

The engine since v11.301.7

- `d7958c704` SCORN's party converged (the user, 2026-10-16: "go with the stack"): SCHEDULER, KEEPER, STAMPEDE, ESCALATE, MIGRATE, 47-50, perfect IVs, every one UPHEAVAL / DISCHARGE / FREEZE / RADIATE -- one streak on five bodies, nothing rolled on his side
- `5c949f388` T-409 (the user, 2026-10-16): the fir sings in B-flat, the painting's key -- green, purple x3, red, orange x4, red, orange, yellow, blue, red, purple; MUS_NEXUS a whole tone up with it

The design and tools since v11.301.7

- `a5e63202` qa: the BOX-3's suggested mouths, for checking (companion C-138)
- `ddab37f7` T-413 (engine d7958c704): SCORN's party converges, the stack; T-409's blue confirmed
- `3c4bfbc5` TODO: the user's answers (2026-10-16) -- T-409 B-flat (built), T-406 parked, T-407 season and time homes, T-408 music from the user's songs
- `aa87150e` qa: T-409 in B-flat
- `d07b7e07` T-409 (engine 5c949f388): gennexustheme sounds MUS_NEXUS in B-flat
- `c4556d87` T-408: a grove-look pilot (GUESSWORK, THE EMPATHVERSE), not used -- the model drew no mask
- `7dc06f0c` TODO: T-405, T-410, T-411, T-412 drafted (field page q-push79); T-406, T-407 asked
- `9a0b479c` ROM release v11.301.7: the grove universes' NEXUS signs (T-408), the fir's notes seen and MUS_NEXUS (T-409, DRAFT), the glitch effect in DEBUG (goal B, DRAFT)

`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`3e2a0e470e5fe759f549cade346791b224f8c172`

The engine since v11.301.6

- `02bf430fb` Goal B (DRAFT): DaemonsGlitch, a special -- the map's middle layer torn in bands by HBlank DMA and its palettes flickering, then settled; placed nowhere, played from DEBUG -> SOUND -> GLITCH (which stays on the map, unfaded)
- `a5dbe137e` T-409 (DRAFT): in THE NEXUS the Christmas tree's own palette takes the fir's strong light
- `1da69c855` T-409 (DRAFT): the fir's notes seen -- each note lights the map a little and the fir a lot in the painting's colour, the flats a blend in the key; THE NEXUS's own theme, MUS_NEXUS (350), on the fir's notes
- `c1ad7f471` T-408 (the user, 2026-10-16): every grove is a universe -- a sign beside each of THE NEXUS's fourteen doors names it (THE BACKDROPVERSE ... THE CLAYVERSE) and hints where its door is, readable before the grove is found; the game's own sign object, so no tile is spent

The design and tools since v11.301.6

- `dae84560` qa: the ESP32-S3-BOX-3's faces by voice phase and its device picture (companion C-138)
- `92132c89` qa: the glitch effect draft (goal B, engine 02bf430fb)
- `8e172e7e` T-409: built as DRAFT (engine 1da69c855, a5dbe137e) -- the notes lit, MUS_NEXUS; sent to the user, the key asked
- `92316b53` T-409 (engine 1da69c855): tools/gennexustheme.py writes MUS_NEXUS; gbanexusmap plays it; gbasongs checks CALLOW's and the NEXUS's
- `97ed0cf2` companion_export.py (companion 539a552): the wisdom's flags as numbers
- `93e4c5a7` companion_export.py (companion 7cb1a39): groves.json, the MARKS' wisdom, the PLUGIN and items pockets; the field-test route tops up its repel each stop and clears the Mansion's two trainers before the log
- `bbee9c8c` T-408 (engine c1ad7f471): the universes' names and NEXUS signs in tools/gbanexusmap.py
- `35cb95d1` qa: the device sprites (C-130)
- `0e6c3d03` TODO: the user's answers (2026-10-16) -- T-408's names approved, T-410 in the game too, T-411 keeps craft rule 1 in the game (the PROFILE may title it), T-412 is 21 dreams; the understandings' names to be drafted (T-252)
- `c23823bc` companion_export.py (C-128, C-129, companion 4ac29b6): events.json and school.json
- `a5b0e93e` TODO: T-410 (a MARK and its ROOT say how each balances the other), T-411 (the last note, when every pair is held), T-412 (a DREAM LOG) -- the user, 2026-10-16
- `0b7cb57f` companion_export.py (C-126, C-127, companion 61c9f49): marks.json, regions.json and the eight MARK badges for the PROFILE
- `52a9d61d` TODO: T-405 (STREAM lessons for UNDERSTANDINGS), T-406 (where each daemon was met), T-407 (what it is native to), T-408 (the groves as universes: names, NEXUS signs, looks, music), T-409 (THE NEXUS as Episode 4: the fir's notes as music and as colour) -- the user, 2026-10-16
- `c3aadd74` T-401 closed: the loose pages say what they are about, and every delivery flows (v11.301.2-.3)
- `84f12539` qa: C-121 -- the CoreS3 on the bench
- `e73eec9b` ROM release v11.301.6: THE BAND'S SHEET ends on The Painted Mirror's episode 4 (T-402 closed); the companion reads the NOTEBOOK (C-125)

The engine since v11.301.5

- `8ea66d0ea` T-402 (the user, 2026-10-15): THE BAND'S SHEET ends on a code to The Painted Mirror's episode 4, Where Sound comes to Light, and Light comes to Sound

The design and tools since v11.301.5

- `0ef86f35` companion_export.py, C-125 (companion 50fc085): each NOTEBOOK page's SEEN flag (T-403, so the phone marks it unread as the game does), the place it was found (notebook_notes.h's map, named from maps.json) and the song or post its QR code opens (T-402: sPageQr -> sQrCodes -> the URL above each code). check_generators: 131 clean; --check agrees.
- `d187a77c` qa: C-121 -- both Dials on the bench
- `d3c3df34` T-402 closed (engine 8ea66d0ea): THE BAND'S SHEET links The Painted Mirror's episode 4
- `f041d485` ROM release v11.301.5: every page from a public song ends on a QR code to it -- the user's nine links, fifteen more pages (T-402)

Every page from a public song now carries its code.

The design and tools since v11.301.4

- `acaf9eac` T-402 (engine 0e07392a1): the user's nine song links in tools/gbaqr.py; Crystal's Reply kept for LOOSE PAGES 6
- `4e48fb07` companion_export.py, C-125 (companion f5001c8; the user, 2026-10-15): the NOTEBOOK for the phone's PROFILE -- notebook.json, every page in notebook.c's order with the flags that file it, its one line and its words (notebook.c, notebook_documents.h, wisdom.h, the maps' text.inc); the player's pictures (the trainer card's and the first walking frame, REASON and INSTINCT); profile_layout gains the rival's name, the shoes, the NOTEBOOK and the understandings. check_generators: 131 clean.
- `b631aa00` qa: C-123 and C-121 -- the T-Deck: a message to everyone nearby, and on the bench
- `69e6f659` ROM release v11.301.4: the generators level -- 20 portraits outlined, 110 daemons' streaks on, the TOOLKIT in T-391's words, the four legendaries' overworld objects in their type palettes (T-404)

The engine since v11.301.3

- `06523b4c9` T-404: ENTEI, RAIKOU, SUICUNE and CELEBI's overworld objects in their type palettes (T-133), written by gbaowslots now that it keeps the table's hand-added tail (TY, DAVID, the fir)
- `e114d237e` Generators level (2026-10-15 drift sweep): the 20 T-120 Hoenn portraits take the true-black outline everything else has (gbaoutline); 110 daemons drawn in T-210 batches 2-7 switch their streaks on (genstreaks -- T-293's failure again); the TOOLKIT shows T-391's routine words, fitted to its three lines (port_plugin_text); the move menu's comments say our names (gbamovemenu)

The design and tools since v11.301.3

- `88d70f62` qa: the drift sweep's sheets -- 20 portraits outlined, the legendaries' overworld objects (T-404)
- `e6a8c7f1` T-404 struck: gbaowslots, gentowns and genty off generator_drift.json; sprites.md re-counted for the four legendaries
- `da5342e5` T-404 (engine 06523b4c9): gbaowslots keeps the graphics table's hand tail and puts its variants back in place; genty outlines TY itself; gentowns leaves T-371's companion lemur alone
- `ee5bdfff` TODO: T-404 -- gbaowslots, genty and gentowns made safe to write (the 2026-10-15 drift sweep)
- `c1598a90` generator_drift.json: gentowns, genty and port_pronoun recorded with the hand work each would undo; gbaowslots notes the four legendaries waiting on its tail fix; gbachar's list takes today's 20 outlined portraits and drops 54 line-ending-only entries
- `eac81383` gbaspritecensus: no engine commit stamped in sprites.md -- it drifted on every engine commit with nothing measured changed
- `967c2aa0` type-chart.pdf and items.pdf re-cut from today's regenerated pages
- `d2481eae` Drift sweep (engine e114d237e): check_generators' sandbox links engineAi and agbcc, gives gbadocs its private text, and ignores line endings; gbadocs keeps a page's sign in its slot; engine.md, the type chart, the items page and retired_names regenerated
- `f9e90e29` T-319 kept current (engineAi 701cb46): the brief knows the game as of 2026-10-15
- `30a51f28` qa: C-121 -- both T-Embeds and the T-Display-S3 Pro on the bench
- `355f41d0` ROM release v11.301.3: the NOTEBOOK marks what is unread, says what each page is, and shows where it was found (T-403); pages flow as they are handed over (T-401)

The engine since v11.301.2

- `b7ada8635` T-403 (the user, 2026-10-15): a NOTEBOOK page says where it was found, what it is, and whether it has been read -- a dot beside a page (and its section) until it is opened, here or where it was found; one line under the list saying what it is (DRAFT), and R opening the TOWN MAP on the place it was found (region_map: InitRegionMapFocusedWithExitCB). SEEN flags at DAEMONS_FLAGS_START+0x200; an old save counts everything already filed as read, once. Played in the theatre.
- `fa5b3e144` T-401, the user's answers (2026-10-15): CAIRN: And take this with you.; the Owl's desk shows FIRST REVIEW before READ AGAIN to a player who never read it; the warehouse says A sheet of hotel paper came with it. before filing NO ADDRESS (the cave's two stay silent); every page is filed as copied it into the NOTEBOOK. DRAFT.
- `d886c21dc` T-401 (2026-10-15): NOTEBOOK pages flow as they are handed over -- the READING ROOM's six shelves and THE STONE open their page full screen (the look lines restated each page's first line); the Owl's desk says copied once for two pages; the museum card shows only the card once its page is held; MINUTES keeps its JAN 2; CAIRN says One more thing once; the Mansion's floorboard holds a sheaf, so copied it agrees

The design and tools since v11.301.2

- `d21f624c` gitignore: a zip in ROM RELEASE carries the ROMs too -- never committed
- `af7ad350` T-403 struck (engine b7ada8635): tools/gbanotebook.py and docs/notebook_notes.json -- each NOTEBOOK entry's place, line and SEEN flag
- `db5922d7` qa: C-121 -- the M5GO on the bench
- `d21a3ff4` engine.md: the budget against vanilla FireRed, and the save -- ROM +520 KB (6.6 MB free), EWRAM +368 B (736 B free), the save blocks unchanged with their slack, 949 flags and 75 vars free; written by gbabudget.py, which now measures pret's pristine build and asks agbcc for sizeof each save block (the user, 2026-10-15)
- `316ea9ae` T-401 answered and built (engine fa5b3e144); T-403 filed: a NOTEBOOK page says where it was found, what it is, and whether it has been read (the user, 2026-10-15)
- `7cbf5acb` T-401 (engine d886c21dc): the deliveries flow -- gbadocs files a spot's pages with one line and a card's page once; five questions left for the user in TODO
- `bbe4dbc7` ROM release v11.301.2: REST restored where the move sweep reached plain English (T-401), and the debug SOUND row reaches every song

The engine since v11.301.1

- `15a6ba752` T-401 (2026-10-15): REST restored where the REST->IDLE move sweep reached plain English -- the SAFARI ZONE's four REST HOUSE signs (since 5baafcbcd, 2026-09-10) and the band's sheet, THE TUNE KNOWS THE REST (since bc7cba35f). DRAFT.
- `4dbb37611` Debug SOUND: SONG walks to the last appended song (MUS_CALLOW), not MUS_BRAZEN -- it could never play SLATE's or CALLOW's own (found recording T-05, 2026-10-15)

The design and tools since v11.301.1

- `c31e1725` T-401 (engine 15a6ba752): REST HOUSE and THE TUNE KNOWS THE REST restored, and held in port_vocab and check_lexicon
- `ab127a85` qa: C-121 -- the Fire on the bench, the three buttons and five expressions
- `8040d4d0` T-392 filmed and T-05 recorded for the user's approval (engine 4dbb37611: the debug SOUND row reaches every song)
- `f3db30f4` ROM release v11.301.1: the loose pages say what they are about (T-401) and the song pages end on their songs (T-402); v11.300.x sealed into its notes PDF

The engine since v11.300.1

- `2fdd445e3` T-402 (the user, 2026-10-15): every NOTEBOOK page from a song of the iASHC opera found public ends on a QR code to its track -- ten songs, sixteen pages; notebook.c's sPageQr says which page carries which code, and the codes' enum is generated beside them
- `56b932830` T-401 (the user, 2026-10-15): FOLDS names each fold -- AWARENESS, CHANGE, SPACE, MIRROR, PATTERN, RETURN -- because as only paper it read as paper; THE STONE says what nobody at home sees, and FIELDS no longer breaks a sentence across a page

The design and tools since v11.300.1

- `abe90152` T-402 part (engine 2fdd445e3): ten songs' codes in tools/gbaqr.py, which now writes the enum too; TODO lists the songs still waiting on the user's links
- `3de5fb5c` T-401 part (engine 56b932830; the user, 2026-10-15): FOLDS names each fold, THE STONE and FIELDS made plainer. Bible v11.301 (4.33's paper-only FOLDS to Reversed; lineage 4.6), CHANGELOG, PDF cut, v11.300's removed.
- `6439bca8` TODO: T-401 (loose pages legible as what they transcribe; dialogue flow) and T-402 (a QR code after every blog- or book-based page) -- the user, 2026-10-15
- `fd9fb96f` ROM release v11.300.1: MIND READER is ANTICIPATE (T-393) and the AQUA admin is a tiger shark (T-120); v11.299.x sealed into its notes PDF

The design bible's own entry for v11.301

v11.301 — 2026-10-15

The loose pages say what they are about (T-401)

- ***4.33 and LOOSE PAGES 7, reversed (the user)***: **FOLDS names each fold** -- *AWARENESS, CHANGE, SPACE, MIRROR, PATTERN, RETURN, the essay's own order -- because as only paper it read as paper ("it isnt clear that it is talking about awareness"). The essay's conclusions stay out (craft rule 1) and it still never mentions the scientist (NEVER ADJUDICATE). See Reversed.*
- ***LOOSE PAGES 1 and 3 (the user)***: **THE STONE** *now says what nobody at home sees ("they say I see things that are not there"; the rule "sat still long enough to copy down"), and is approved;* **FIELDS** *no longer breaks a sentence across a page, and ends "To me it is all one room."*
