DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	05db4766cc3744b3b7b57fca307ea3bbbb78d238

The engine since v11.290.7

- 60a50211d T-337 fixed: the grove tell moved out of the water animation's tiles (462/463 -> 626/637)
- 45d52c4d2 T-347: the CHECKPOINT attendant's dream, offered to a player who seems stuck (DRAFT)
- 138b1aaae T-346: the leaders say each MARK's virtue aloud, ANNEAL points home, and CALLOW hears its BENCHMARK unlatch (DRAFT)

The design and tools since v11.290.7

- 38684b8d TODO: what the theatre saw on screen 2026-10-02 -- T-297, T-340..T-343 played; T-338/T-339 checked from the built text
- c6121afd T-317: three overworld-clarity designs mocked up on a real CALLOW frame, A recommended -- waiting on the user
- d67f313a T-337 fixed, engine.md trap 39: a tile no metatile uses can still be one an animation owns -- gbagrove's check_tell_tiles() refuses it
- 7f956ac7 T-346, T-347 built: the eighth door announced, and the CHECKPOINT attendant's dreams (tools/gbadreams.py, docs/attendant_dreams.json); T-319 kept current
- ff4de037 T-344: every release proves its Rev 1 patches on the user's own carts, by SHA-1, and refuses to publish otherwise
- 62ce4a78 T-345: check_lexicon excuses the ROUTE 5-8 graffiti by file, sign and phrase -- a stale name painted beside it is still caught
- d6ced8ef TODO housekeeping: T-316, T-318, T-235, T-10 and T-221 closed (verified, nothing left open); T-252 narrowed to its one open question; answered waiting tags struck on T-224, T-210, T-120
- 0de830e0 TODO: T-344 the user's cart dumps are in (FireRed and LeafGreen Rev 1, both retail-exact); the test joins today's goal
- fc1ec96a TODO: T-346 the eighth door announced and the virtues said aloud; T-347 the CHECKPOINT attendant's dream for a stuck player (both approved 2026-10-02)
- 93299e85 TODO: the user's answers of 2026-10-02 -- T-210/T-120 all of it (with the user, not in a loop), T-317 a drafted overworld change, T-318 seven is enough; T-345 the graffiti check
- 1c3c9d68 tools/dreamfold.py: keep every session fold, and dream it
- 4fdbede5 qa/screenshots: every earlier review picture filed, named - - -
- 411790fa qa/: every review picture filed where GitHub shows it, private ones ignored; the handoff and the push routine in CLAUDE.md
- 274eba6c ROM RELEASE/CART BACKUPS: a gitignored home for the user's cart dumps, and T-344 the patcher test
- 66b17671 ROM release v11.290.7: FOLDS' corner of paper -- every approved find has its hint (T-297)

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: ROM RELEASE/HOW_TO_PATCH.md .

patch	apply it to	that ROM's SHA-1	tested on

The engine since v11.290.6

- d0cacd32d T-297: FOLDS' blind tell -- a corner of paper under the bottom-left of the painting's frame (tools/gbainterior.py verdigris_block, rebuilt)

The design and tools since v11.290.6

- f90e1dd5 T-297 closed: gbainterior draws FOLDS' corner of paper into CONDOMINIUMS 3F; every approved find has its hint
- 838b4172 ROM release v11.290.6: the NOTEBOOK's pages shimmer under REVEAL, DOLDRUM's resident looks out across the water (T-297)

Patches

DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	195be509c96ef9c2ddd519c45111f9495cd041a1

The engine since v11.290.5

- 0cf2e6126 T-297: DOLDRUM CAVE's hint -- a DOLDRUM resident looks out across the water and changes the subject (DRAFT; was vanilla's encyclopedia line)
- 7089b3d14 T-297: the NOTEBOOK's placed pages shimmer under REVEAL until read (src/data/notebook_finds.h, written by tools/gbadocs.py)

The design and tools since v11.290.5

- ab943ba6 T-297: gbadocs writes REVEAL's rows for the placed pages; the groves, the pages, DOLDRUM CAVE and OPUS recorded; FOLDS' corner waits on a verdigris_block rebuild
- 838ff915 ROM release v11.290.5: CRYSTAL hints at OPUS, the rival is eager, the attendant wishes for the GUIDE, quieter sparkles before REVEAL (T-338..T-343)

Patches

The engine since v11.290.4

- f5ef4d327 T-342, T-343: the GUIDE's shelf sparkles before REVEAL until taken; a sparkle seen without REVEAL is quieter, one beat in three
- 4403d6cb5 T-340, T-341: the READING ROOM attendant wishes she could read the GUIDE, hidden on an island -- and thanks you once you hold it (DRAFT)
- 5e00458c9 T-338, T-339: CRYSTAL says the INDEX can be more (one thing she is still working on, one at THE REPO, not for sale); the rival in the lab is eager to set out -- the mainland's machines, the islands' minds (DRAFT)

The design and tools since v11.290.4

- e38d39eb TODO: T-338..T-343 closed with their engine commits
- 7c35d142 TODO: T-338..T-343 -- CRYSTAL hints at OPUS, TY eager in the lab, someone wishes for the GUIDE and thanks you, the GUIDE sparkles before REVEAL, quieter sparkles before REVEAL (the user)
- 73dbe093 ROM release v11.290.4: all fourteen grove doors carry the tell (T-337)

The engine since v11.290.3

- `08d82447b` T-337: the last three grove doors carry the tell -- VIRIDIAN FOREST's and the BERRY FOREST's tree a dark slot down the trunk, SIX ISLAND's rock a small cave-mouth (DRAFT, tools/gbagrove.py)

The design and tools since v11.290.3

- `5efa88f3` T-337: gbagrove draws the tell in each tileset (SECONDARY_TELL), and marks a trunk that stands off its door's event (tell_at)
- `bab32a81` ROM release v11.290.3: a grove's tree has a little door, the fir's star twinkles (T-337)

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM RELEASE/HOW_TO_PATCH.md`.

The engine since v11.290.2

- 17a08e57e T-337: the singing fir's star twinkles -- three frames on an irregular loop (DRAFT, tools/gensingingfir.py)
- c92e257f9 T-337: a grove's tree has a little door in its trunk, a grove's bush a gap at its foot -- eleven doors and every clearing's way out (DRAFT, tools/gbagrove.py)

The design and tools since v11.290.2

- d31e7377 TODO: T-337's row names its engine commits
- 16816441 T-337 closed: gbagrove draws and places the grove's tell (TELL); gensingingfir draws the star's twinkle frames
- c2442af3 TODO: T-337 -- a grove's tree subtly unlike the others, and the fir's star twinkles (the user)
- 9006c095 ROM release v11.290.2: nine named babies drawn (T-210), CRYSTAL on Teachy TV (T-120)

The engine since v11.290.1

- 449444209 T-210: the nine named babies drawn from their parents' sprites (DRAFT) -- VALENCE, RESIDUAL, CRANK, STANDBY, CINDER, STATIC, TELL, PREMISE, RANKLE; icons and streaks follow
- b73086942 T-120: TEACHY TV's trainer demo shows CRYSTAL, not vanilla's OAK -- the one vanilla portrait a player could still see

The design and tools since v11.290.1

- 0a3e3066 T-210: nine named babies drawn from their parents' sprites (DRAFT), with the drafts' records; T-120 and T-210 rows updated
- f906fc1b T-120: the census walks what can show a trainer portrait -- 80 of the 81 vanilla ones never can (Ruby/Sapphire placeholders); OAK's Teachy TV portrait is CRYSTAL (gbachar crystal_teachy); portraits read 66 of 66
- aeac658e TODO: T-333's row names its commits and release
- b7b3259a ROM release v11.290.1: QUORUM's line, the 65 INDEX categories; v11.289.x sealed

DAEMONS V11.290.1 – RELEASE NOTES

Released 2026-10-01 16:46 · built against the design bible v11.290

- **Engine:** CodeMusic/pokefirered-daemons 71b761513 (context-content)
- **Design:** CodeMusic/DAEMONS 6986beae

ROM	edition	SHA-1
daemonsContent.gba	CONTENT	48f4b74ec6573c8ecb93ed3db1aa834dad0c2d58
daemonsContext.gba	CONTEXT	ded6d5aeab91f08a932f5f98d44ae530f1c0e425
DEBUG/daemonsContent_debug.gba	CONTENT (testing build)	32ba4197ef69cc0c8457fc0fdc32737284bd9dcb
DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	42ca12759662d95c00bb416e57e00585fe4b0740

The engine since v11.289.2

- 71b761513 T-333: 65 named daemons get INDEX categories of their own (DRAFT) -- OVERCALL, NIGHT WATCH, BANDWAGON, HARD STOP, KEEPALIVE, SHAPESHIFT ...; each line keeps the category it replaced
- 9d5a6e4a4 T-322: QUORUM's CONTENT entry takes the draft -- what a quorum is: none acts until enough of the others have seen the same thing (DRAFT)

The design and tools since v11.289.2

- 6986beae T-333 closed: check_lexicon fails on a renamed daemon under upstream's INDEX category; its vanilla-INDEX row fails the run again (a later check had overwritten its result)
- 8ab3e763 v11.290: QUORUM's CONTENT line redrawn (T-322, the user's choice) -- 4.25's quote follows; the INDEX's 65 categories in the changelog (engine 9d5a6e4a4, 71b761513)
- 0763ac9e TODO: QUORUM answered -- take the draft (T-322), for the next goal pass
- e4ab4fb6 ROM release v11.289.2: the dated documents (T-335) -- CORRESPONDENCE 1, PROSPECTUS 3 placed, the staff notice; lists and signatures on their own lines again

The design bible's own entry for v11.290

v11.290 — 2026-10-01

QUORUM teaches its word, and the INDEX's categories catch up (2026-10-01)

- **QUORUM's CONTENT line is redrawn** (T-322, the user's choice): *"Three of them. None acts until enough of the others have seen the same thing. Two is enough. One never is."* — the old line taught *"three saw it"*, never the threshold. 4.25's quote follows; CONTEXT keeps its line.
- **65 named daemons get categories of their own** (T-333, DRAFT): ALARM is an OVERCALL DAEMON, BLISSEY's slot a KEEPALIVE, PROTEUS a SHAPESHIFT. `check_lexicon` now fails on any renamed daemon still under upstream's category — and its vanilla-INDEX row, which a later check had been silently overwriting, fails the run again.
- **The dated documents** (T-335, released in v11.289.2): the user's own dates on the NOTEBOOK's pages, under fable names; the record itself stays private.

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM_RELEASE/HOW_TO_PATCH.md`.
