DAEMONS v11.307.x — release notes

Every release made while the design bible was v11.307, newest first. The ROMs beside this file are v11.307.3.

DAEMONS V11.307.3 — RELEASE NOTES

Released 2026-10-20 21:29 · built against the design bible v11.307

- **Engine**: CodeMusic/pokefirered-daemons `b85aa8e46` (context-content)
- **Design**: CodeMusic/DAEMONS `44563659`

ROM	edition	SHA-1
`daemonsContent.gba`	CONTENT	`d5ad72517d9aad8281700749a7aab07c31bf38b5`
`daemonsContext.gba`	CONTEXT	`0e44254fe4fb8bf71eb43ea2f002fb1ed628ea16`
`DEBUG/daemonsContent_debug.gba`	CONTENT (testing build)	`5cfeb692b83537700ec268738da9ea4dd5393285`
`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`db2509f2cf3d3599efb69c9e65d9eb0bea87d018`

The engine since v11.307.2

- `b85aa8e46` T-18 P2: A on THE FOLLOWER -- facing the tile it stands on and pressing A (field_control_avatar.c asks Follower_GetInteractionScript after the people, before the signs: it is a sprite, so a person on its tile answers first) runs EventScript_Follower (data/scripts/follower.inc). Follower_Talk turns it to face the player, lifts the trainers' own bubble over it (trainer_see.c's CreateEmoticonSprite: ? at friendship 0-99, ! at 100-219, the smile at 220-255, !! when it notices something) and leaves its words in gStringVar4, in the daemon's text colour: the line for its friendship (the plan's five readings, 0-49/50-99/100-149/150-219/220-255), then one mood when one holds -- an unfound hidden item within two tiles (not underfoot ones), the place (THE NEXUS; HALFTONE, DOLDRUM CAVE unread with it), and outdoors outside BREATHVERSE the sky (rain, thunderstorm, snow, fog, wind), the watch (night, dusk, dawn; the day has none), else the season. A mood's two lines take turns. 34 lines, every one DRAFT, each at most 208px with a 10-letter name. Costs: IWRAM 0 (the turn counter fits sFollower's padding, still 72 B), EWRAM 0, save 0, ROM ~3 KB (code ~1.3 KB, lines ~1.6 KB).

The design and tools since v11.307.2

- `44563659` T-18 P2 built (engine b85aa8e46): A on the follower -- tools/routes/follower-talk.json (12 stops: friendship 0/70/120/150/255, night/dusk/dawn, rain/thunderstorm/snow/fog/wind, the four seasons, HALFTONE, THE NEXUS, a hidden item noticed, indoors the friendship line alone; all pass in CONTENT and CONTEXT); theatre_route.py learns `follower talk` (face it without stepping into it, film the bubble, capture the boxes); TODO notes P2 on T-18's row
- `9b093ea1` TODO: T-18 P1 released v11.307.2; the user keeps the sprite and the 8 OPTIONS rows, wants shiny palettes (P3)
- `3b65a12f` qa: T-18 P1 the follower walks and hides
- `04a087da` ROM release v11.307.2: a follower daemon walks behind you and hides -- T-18 P1 (OPTIONS row FOLLOWER, DRAFT)

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM RELEASE/HOW_TO_PATCH.md`.

patch	apply it to	that ROM's SHA-1	tested on
`PATCHES/DAEMONS CONTENT for FireRed 1.0.bps`	Pokemon FireRed (USA) 1.0	`41cb23d8dccc8ebd7c649cd8fbb58eeace6e2fdc`	pret's byte-identical rebuild

DAEMONS V11.307.2 — RELEASE NOTES

Released 2026-10-20 20:40 · built against the design bible v11.307

- **Engine**: CodeMusic/pokefirered-daemons `af8771e31` (context-content)
- **Design**: CodeMusic/DAEMONS `731d9026`

ROM	edition	SHA-1
`daemonsContent.gba`	CONTENT	`3f87fd65c4161cf9114484a64b76dd274b6931b5`
`daemonsContext.gba`	CONTEXT	`7f7877832d60f6660bbbcce9a063cf2a28a13e2a`
`DEBUG/daemonsContent_debug.gba`	CONTENT (testing build)	`ab7e965f343d84a4195cb1a0e2e3a5e74fd7f4ed`
`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`3287fa14f991fbe4a97dc68aa015d306260354d6`

The engine since v11.307.1

- `af8771e31` T-18 P1: THE FOLLOWER walks and hides -- the lead (the first party daemon not an egg, HALTED or AWAY) walks a tile behind as its own party icon (no new art), 1x, in its TYPE colours (src/data/follower_palettes.h: the icon's shared palette remapped to the nearest colours of its front palette, by DAEMONS tools/gbafollowerpal.py, 14 KB), greyed by friendship (T-424's Saturation_ApplyToBuffer), in the field's light and weather; a 1 px hop mid-tile, flipped facing right. A SPRITE, not an object event: no object slot, blocks nothing, never saved or recorded. It replays the player's sprite path 16 px late (a ring of 16 pixel steps, IWRAM 72 B), so walk/run/bike/stairs/turn-back-swap come free and world pixels carry it across seams; a ledge's 32 px count as 16, so it waits above the ledge and jumps it on the next step. Hidden and snapped (walks out of the player after): surfing, forced movement, a FLASH-dark cave, a warp/door (the player's sprite hidden), a script moving the player (cut scenes) until it lets go. Absent: OPTIONS FOLLOWER OFF (new eighth row, DRAFT; FLAG_FOLLOWER_OFF 0x3E2 in SaveBlock2's filler, 0 B save), no lead, link rooms, the Continue recap, no free OBJ palette slot 12-15 or sprite. Comes back where it stood after a battle or menu (same map and tile), else on the player's tile. The party is read every 8 frames, not every frame. DEBUG -> GAME EVENTS -> FOLLOWER >: on/off, lead friendship 0/70/150/255.

The design and tools since v11.307.1

- `731d9026` T-18 P1 built (engine af8771e31): tools/gbafollowerpal.py writes the follower's type palettes; tools/routes/follower-walk.json (11 stops, all pass); theatre_route.py learns keyitem and follower shown|hidden|absent, and its friendship step holds the follower's party reads off while its pokes land (one poke a frame left a checksum mismatch a per-frame read turned into a BAD EGG); companion_export.py leaves the DEBUG FOLLOWER page out of the PROFILE's events; TODO notes P1 on T-18's row
- `aa426942` qa: T-406 BOUND
- `e3cbb7e5` ROM release v11.307.1: the INDEX says how a daemon you hold came to you -- BOUND (T-406); THE SUBTLE LAYER's cover (T-423); seals v11.306.x

DAEMONS V11.307.1 — RELEASE NOTES

Released 2026-10-20 11:17 · built against the design bible v11.307

- **Engine**: CodeMusic/pokefirered-daemons `97f28c455` (context-content)
- **Design**: CodeMusic/DAEMONS `568d3e25`

ROM	edition	SHA-1
`daemonsContent.gba`	CONTENT	`3f50c869b03f10948c7986edf1ae2c65452b478b`
`daemonsContext.gba`	CONTEXT	`77b264b0f9552a35e8c94a92535430c38359c984`
`DEBUG/daemonsContent_debug.gba`	CONTENT (testing build)	`e2f148da4d75452f827a48f8b49beb3b1b0b7cc7`
`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`62718ba4565e82f182e4cf054f9e8d75056fc09a`

The engine since v11.306.10

- `97f28c455` T-406: BOUND -- the INDEX's workings (L, MORE) open with how the daemon you hold came to you: BOUND: , BOUND: BY TRADE (METLOC_IN_GAME_TRADE or an OT that is not you), BOUND: FROM AN EGG (met level 0), BOUND: A GIFT (givemon, or a fateful encounter); the first held one is read, party then boxes, none held or reading in a battle says nothing (DRAFT). A gift is marked by ScriptGiveMon in substruct0's spare u16, bit 0 (MON_DATA_DAEMONS_GIFT 89); one given before this build reads as bound where it was given
- `4227f501d` T-423: THE SUBTLE LAYER's cover -- the plate narrowed so the six clair glyphs sit clear of it (the user chose cover A, 2026-10-20); DAEMONS tools/gensubtle.py

The design and tools since v11.306.10

- `568d3e25` TODO: T-406 struck -- BOUND built (engine 97f28c455): the workings' first line says how the daemon you hold came to you (DRAFT)
- `491e20a9` T-423 done: the last three calls, made with the book in the game -- CHORUS kept, the Clairs hint kept, cover A with its plate narrowed (engine 4227f501d, companion 4467612)
- `6a106554` T-423: the cover's plate narrowed so the six clair glyphs sit clear of it (the user chose cover A, 2026-10-20; engine 4227f501d)
- `ea11e93f` TODO: T-319, invisible objects hidden from the model (the user)
- `4e1ca62d` T-319: the AI playtester kept current to 2026-10-20 (engineAi 8b3b1e0)
- `7605c077` TODO: T-18 planned; the user's four answers
- `548304a8` TODO: six finished tickets struck -- T-334, T-408, T-415, T-417, T-422, T-427 (the user)
- `98f2d9c2` Bible v11.307: CALLOW's own theme on the GBA build (T-05)
- `2d50f6f5` qa: T-406, T-05, T-422's cheer
- `92a6b928` ROM release v11.306.10: CALLOW's own theme (T-05), the GAME CORNER's crowd cheers (T-422), the INDEX says where you first met each daemon (T-406)

The design bible's own entry for v11.307

v11.307 — 2026-10-20

CALLOW's own theme (T-05)

- ***7.4 (the user, by ear)***: **CALLOW plays The Christmas Cloak of Self** on the GBA build*, its houses and the school with it; THE BLEED keeps its tune, so the two no longer share.*
