The design bible's own entry for v11.332

v11.332 — 2026-10-29

- **2.12 §2, the `* SINK` items, released in v11.331.1 (T-488).** There are sixteen. Neither ORACLE nor CONTENT has one, because CONTENT is super-effective against nothing. Two of the names overlap ability names: SINK is MINUS's ability and SIGNAL SINK is LIGHTNING ROD's. The user chose to keep both. The bible also lists where each is sold and the four hidden on routes.
- **9.32, the GIFT, released in v11.331.1 (T-492).**
- A Settled entry in section 10. Every word is DRAFT.
