DAEMONS v11.320.x — release notes

Every release made while the design bible was v11.320, newest first. The ROMs beside this file are v11.320.4.

DAEMONS V11.320.4 — RELEASE NOTES

Released 2026-10-29 07:51 · built against the design bible v11.320

- **Engine**: CodeMusic/pokefirered-daemons `848959312` (context-content)
- **Design**: CodeMusic/DAEMONS `bd8d87de`

ROM	edition	SHA-1
`daemonsContent.gba`	CONTENT	`4a807fd7c80626e378d87cb4849aef8cad20773a`
`daemonsContext.gba`	CONTEXT	`a3bf4e0786787114b53193283e4999a928830491`
`DEBUG/daemonsContent_debug.gba`	CONTENT (testing build)	`92e340c69517e460b57b73f5aed6606acb9cab7e`
`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`aa0f12c4d99a943a920f352c6428f02c1f40bf7c`

The engine since v11.320.3

- `848959312` T-480: UNDERCURRENT; the second page's purple mark
- `cfc089932` T-480: the witching hour, the game's half (DRAFT) -- 3:00 to 4:00 AM on the cartridge's clock the party wears a faint, flickering shimmer of THE SUBTLE LAYER's purple (follower, summary, party icons, the player's battlers) and the follower casts no reflection; once the book is held, the battle menu's second screen (R, or DOWN past the bottom row) offers each daemon one routine for its first type, never written into a moveset or the save

The design and tools since v11.320.3

- `bd8d87de` T-480: genanims files FLOW's hour routine as UNDERCURRENT; the mark's frame
- `ff8fb402` TODO: T-480 built; UNDERCURRENT, SECOND SIGHT dormant, the menu's purple mark (the user)
- `2765698e` T-480: genanims files the witching hour's routines by type (drawn by hand); the theatre route and its frames
- `cfeefae0` qa: C-236 the witching hour on the watches (a mock-up)
- `24960ef7` TODO: T-480 -- ORACLE's SECOND SIGHT
- `b300dfd3` TODO: T-480 -- the user's answers and the shared names (C-236)
- `4bc4565e` TODO: T-480 filed -- the witching hour, the game's half
- `0d83c796` TODO: T-479 struck -- released v11.320.3
- `c407f6e3` manual: rebuilt for v11.320.3
- `6860af02` ROM release v11.320.3: T-479 PENPHIN's INDEX shows both ways in; a trade never writes FIRST MET over a species already seen

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM RELEASE/HOW_TO_PATCH.md`.

patch	apply it to	that ROM's SHA-1	tested on

`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`f1a19610785610c5f19caf1396fb8ff85bf9ae2e`

The engine since v11.320.2

- `a91a59a8e` T-479: a pair trade's child shows both ways in; a trade never writes FIRST MET over a species already seen

The design and tools since v11.320.2

- `4dbbfe17` T-479 played in the theatre: PENPHIN's workings show both ways in; FIRST MET kept (engine a91a59a8e)
- `35c204b1` TODO: T-479 filed -- PENPHIN's INDEX shows one of its two ways in
- `cb3e7e37` theatre_route: --check holds every step to the shape the run reads (a burst's unquoted label); t474_index plays PENPHIN's and PENGUIN's workings and FIRST MET through the family page
- `06041a38` T-474 played in the theatre; T-438 batch G sheets filed (v11.320.2)
- `d24d84e0` manual: rebuilt for v11.320.2
- `9ca28cda` TODO: T-473 -- the PC's refusal to release a loan played in the theatre (with T-474, v11.320.2)
- `bc40d3c4` ROM release v11.320.2: T-438 batch G, the endgame and the ships (a DRAFT)

DAEMONS V11.320.1 — RELEASE NOTES

Released 2026-10-28 22:29 · built against the design bible v11.320

- **Engine**: CodeMusic/pokefirered-daemons `a2a5bf5a` (context-content)
- **Design**: CodeMusic/DAEMONS `48831e2f`

ROM	edition	SHA-1
`daemonsContent.gba`	CONTENT	`f7e1af3afc21e83d4383457d9dfd90c84ffc098a`
`daemonsContext.gba`	CONTEXT	`e6bf7021f952d2e83dfb0cd413e3aa0034d273a5`
`DEBUG/daemonsContent_debug.gba`	CONTENT (testing build)	`94343a133192e11af3c7b1e5cbb643a89822ca8e`
`DEBUG/daemonsContext_debug.gba`	CONTEXT (testing build)	`94dd33cd48340383cb82ad1164aa339dfa5b45e3`

The engine since v11.319.1

- `a2a5bf5a` T-474: DOLPHIN and PENGUIN become PENPHIN only when traded for each other
- `77c2f5eb8` T-476: OVERLOADED's and PROTEUS's followers made again from the forms' new bodies (gbafollower: 87557e860 redrew both after their followers were cut)
- `bf62004cb` T-478: the ten dungeon descriptions and the START menu's INDEX line break with \n, as vanilla -- \l scrolls, and a printer with no prompt stops at it after two lines
- `553bb5271` T-477: A TO Z MODE sorts by our names (gPokedexOrder_Alphabetical from DAEMONS tools/genatoz.py, all 422 entries)
- `27b31c4a1` T-476: DEADLOCK's streaks switched on (genstreaks: batch 8 drew the markers, nothing set the flag); the credits' four cards made again from the T-452 daemons (gencreditcards)
- `c4f305bba` README: every daemon drawn again in the new style, its forms too (T-452); latest release v11.319.1; a pair trade evolution still to come

The design and tools since v11.319.1

- `48831e2f` T-474 built (engine a2a5bf5a5): the pair trade; companion_export carries TRADE_PARTNER and the partner bits
- `538834ed` T-478: the dungeon descriptions and the INDEX's START-menu line break with \n again (engine bf62004cb)
- `94cc199e` T-477: A TO Z MODE by our names -- tools/genatoz.py writes the order (engine 553bb5271); played in tools/routes/t477.json
- `6535f654` T-476: generator drift read both ways -- DEADLOCK's streaks, the credits' cards and two followers were stale (engine 27b31c4a1, 77c2f5eb8); gendaemons and gbacivictown carry later work (generator_drift.json, gendaemons guarded); engine.md's numbers; manual excused from the sandbox
- `e938b63c` qa: C-232's shiny sheet labelled -- the second card was HOPE's ordinary face, there to compare, and said nothing (the manual session read it as a shiny that had not inverted); HOPE now in both
- `cbe4e0f1` qa: T-467 the manual's additions (the week, the holidays, the books asked, the cards, the Pocket Taco)
- `823adf90` manual (T-467): the user's additions -- POCKET TACO and the screen's own buttons (C-234, C-235); the books asked, REASON and INSTINCT: ASK THE GUIDE, ASK THE SUBTLE LAYER, TWO VOICES, TODAY'S QUESTION and THE JOURNAL (C-209, C-229, C-230); THE SUBTLE LAYER's 22 cards, their REASON and INSTINCT faces and the three draws (C-232); THE WEEK (name, note, colour; the companion's word, virtue over its shadow and centre); the hemispheres' seasons with their dates; the real sky on the companion; the year's 36 holidays by their in-world names. {{week}} and {{holidays}} drawn from companion_export.py and docs/holidays.json; 54 pages, v11.319.1
- `52d13c5c` README and wiki: every daemon drawn again (T-452, since v11.316.7), its forms too; the cart alone earns the diploma (T-469); v11.319.1; a pair trade evolution still to come (T-474)
- `962c3a65` Bible v11.320: PENPHIN only by a pair trade, the only pair (T-474)
- `f430b06c` qa: C-233 THE PLAYER'S MANUAL in the companion's LIBRARY (the site, and the iOS app on the iPhone simulator); manual.py notes the companion reads its PDF and the release in its subject
- `6c764464` qa: C-232 THE SUBTLE LAYER's cards (the 22 in their REASON and INSTINCT faces; the shiny ones)
- `8b6df802` manual: rebuilt for v11.319.1
- `a260dd34` ROM release v11.319.1: T-469 the diploma (cart alone), T-470 A-Z and the other sorts, T-471 FEEBAS evolves again, T-472 tool guards; v11.316.x sealed

The design bible's own entry for v11.320

v11.320 — 2026-10-28

PENPHIN only by a pair trade (T-474)

- *Penphin (the user, by multiple choice)*: **DOLPHIN and PENGUIN each evolve only when traded for the other**, and both arrive as PENPHIN; any other trade leaves them as they are (T-234 had either half evolve on any trade). **The only pair trade**: no other species gets one. Built by the game lane (T-473 b) and the companion (C-219).
