The design bible's own entry for v11.314

v11.314 — 2026-10-27

The arc around SOUNDINGS closes (T-460), and it is approved

- ***4.37 (the user, by multiple choice)*: four small things join the arc --** *CORRESPONDENCE 7 AT THE DOOR, a card of signatures on CRYSTAL's desk ("We never got to say it at the door."); an evidence tag on the receiver once THE FILE 4 is read; a half-built receiver on THE ANNEX's bench; flowers on her desk on OCT 3.* **The card closes the signatures motif: "Some are careful. Most are not."**
- ***Played through and approved (the user)*: the SOUNDINGS route passes all 21 stops; every word of T-457, T-458 and T-460 is approved and the DRAFT marks come off.** *The desk props move so the player's hat no longer hides them. CELIO's name is "CELIO's machine" in a sentence and CELIO'S MACHINE on a letterhead, on purpose.*

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM RELEASE/HOW_TO_PATCH.md`.
