

DAEMONS v11.289.x — release notes

Every release made while the design bible was v11.289, newest first. The ROMs beside this file are v11.289.2.

DAEMONS V11.289.2 — RELEASE NOTES

Released 2026-10-01 16:25 · built against the design bible v11.289

- **Engine:** CodeMusic/pokefirered-daemons d0a2edbd8 (context-content)
- **Design:** CodeMusic/DAEMONS 91978a26

ROM	edition	SHA-1
daemonsContent.gba	CONTENT	3d77c6ba3aaf22e77fc15de86b7df0320480eead
daemonsContext.gba	CONTEXT	33f10df91ea7da86d67c0c8cfb4bd9005cf00f61
DEBUG/daemonsContent_debug.gba	CONTENT (testing build)	cc91e989fa02fafd567b4bf992bb945857dc475d
DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	ca7075491a4a8301b878b38bc4681ffd93700244

The engine since v11.289.1

- d0a2edbd8 T-335: the dated documents (DRAFT) -- CORRESPONDENCE 1 on 2F of the tower, PROSPECTUS 3 dated and placed, the minute, the errand page, the fitness letter, the nine items and the routing slip each carry their dates; a staff notice on the lab wall; every list item and signature on its own line again

The design and tools since v11.289.1

- 91978a26 T-335 closed: the dated documents are in (engine d0a2edbd8); gbadocs keeps a single newline as a deliberate break, so lists and signatures stop running together; T-224 records PROSPECTUS 3 placed
- 5f834f50 TODO: T-335 the dated documents take their dates from the user's own record (private), T-336 a review of that record with the user
- 7dabd31b TODO: T-334 trading past the first 151 is blocked (the user: leave it for now); T-333 scheduled for the next goal pass
- 6292ab5f TODO: T-321 and T-327 closed -- the dialogue review is in (engine f44f0ffea), the 29 CONTEXT drafts and CRYWOLF are in (447796feb, 75f3ebda6); both released in v11.289.1
- 351abca1 ROM release v11.289.1: the brain fills lobe by lobe, two-column START menu, no INDEX gate, MOM's own lines, the poster, the three reviews applied; v11.288.x sealed

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: ROM RELEASE/HOW_TO_PATCH.md .

DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	b4327b1df2751b2672b18dfbbe9400f03e3e600b

The engine since v11.288.23

- f44f0ffea T-321: the dialogue review applied -- nine teaching lines rewritten in their speakers' voices (PHLEGMATIC, the SLATE curator, SCORN to the PRESIDENT, the Owl, CAIRN, VERA, Anthony), CORPUS no longer calls itself evil (T-101), typos and the help's POKé BOX fixed (DRAFT)
- 6cb36f9ed T-322: three categories that contradicted their entries -- LENS MUSAI FOCUS, MASK MUSAI COVER (vanilla's SUN and MOONLIGHT), SLURP BULK READ (DRAFT)
- 72217932c T-327: MASK MUSAI redrawn as a grey robot behind a mask -- the white draft's body could not be told from the paper
- 447796feb T-322, T-327: the INDEX review applied -- 61 entries for 54 daemons (THEOREM/LEMMA MIND, BOTTLENECK, BREAKER, SLURP and the weak ones), and CONTEXT's own line for the 26 reached by evolving; OVERRUN's margin follows (DRAFT)
- 3b03ec68d T-324: the signs -- 114 blocks redrafted (vanilla wording replaced, six of ours eased), lost header breaks restored, SEVAULT's half-rename and Gen 1 tips fixed; the sign lady copies the new tip (DRAFT)
- 45b6666df T-332: declare SetStartMenuWindowWidth in every build (the release ROM did not compile without it)
- 7916ee330 T-332: the START menu is two columns -- twice as wide, a divider down the middle; up/down within a column, left/right across
- 77c031fb0 T-331: the brain on the USER card fills one lobe per understanding, each in its type's colour; the halo when all seven are held
- 3722435dc T-323: the bedroom poster is the annotated map, and it sparkles until read -- beacons twinkle from the start, REVEAL or not (DRAFT words)
- abb91e1d8 T-326: MOM's own -- over twenty years on ships, and 'go on your journey, then come back and look again'; after the eighth MARK she asks how home looks now (DRAFT)
- 75f3ebda6 T-327: GRANBULL is CRYWOLF (the user's name) -- FALSE ALARM, both entries and its sprite (DRAFT)
- 1225e90dc T-329: no national-INDEX gate -- every daemon's page shows, its number counts and every evolution happens from the start

The design and tools since v11.288.23

- 805affb9 v11.289: the brain fills lobe by lobe (T-271 reversed by T-331); goal run 2 recorded -- T-321..T-332 (engine 1225e90dc..f44f0ffea)
- 02acf4ca TODO: the user's answers recorded (T-188, T-221, T-224, T-321..T-327); T-329 INDEX gate, T-330 AI harness, T-331 brain lobes, T-332 two-column START menu
- 278c2995 ROM release v11.288.23: the grove daemons face away, three re-rolled, TY outlined

v11.289 — 2026-10-01

The brain shows each understanding, and the user's answers built (2026-10-01)

- *Reversed (T-271 → T-331): the USER card's brain fills one lobe per understanding, each in its type's colour, with a halo at seven — the user could not tell how the single glow changed. Recorded in the Reversed table.*
- *No national-INDEX gate (T-329): every daemon's page shows and every evolution happens from the start; trading past the first 151 still waits for the GLOBAL INDEX.*
- *The START menu is two columns (T-332): up/down within a column, left/right across; it no longer runs off the screen.*
- *MOM's own lines (T-326), the bedroom poster that sparkles until read (T-323), CRYWOLF (T-327), MASKMUSAI redrawn.*
- *The three reviews applied (T-321, T-322, T-324): 114 sign blocks, 61 INDEX entries, nine teaching lines and the CORPUS self-descriptions; all DRAFT.*
- *The AI harness caught up (T-330). New: T-333, 65 named daemons still under vanilla's INDEX category.*

Patches
