The engine since v11.308.4

- `659ce4ef7` T-431 P2 (the user, 2026-10-21): the SUMMARY's fourth page slides in and out like the vanilla pages
- `3487137c8` T-431 P3: the daemon-emoji over the follower -- its face built from the lead's feelings, never named

The design bible's own entry for v11.309

v11.309 — 2026-10-21

Items and moments move feelings (T-433)

- *4.9 extended (the user)*: **items and moments push the feelings** -- potions and revives gladden by strength, the RARE CANDY angers a little (growth taken), bitter herbs and disliked berries rankle, a TM gladdens, the REMNANT unveiled frightens the party once; evolving, LEADERS and the HALL OF FAME gladden, a release saddens. *The whole table and its numbers are DRAFT and private to the plan.*

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM RELEASE/HOW_TO_PATCH.md`.
