

DAEMONS v11.295.x — release notes

Every release made while the design bible was v11.295, newest first. The ROMs beside this file are v11.295.7.

DAEMONS V11.295.7 — RELEASE NOTES

Released 2026-10-05 16:15 · built against the design bible v11.295

- **Engine:** CodeMusic/pokefirered-daemons 33573b876 (context-content)
- **Design:** CodeMusic/DAEMONS c4623472

ROM	edition	SHA-1
daemonsContent.gba	CONTENT	fcbed96d28963b738f95ec8c5ba1c27b772ec0f0
daemonsContext.gba	CONTEXT	d334431cdaef199e94c6498ae8b3885bf30d9316
DEBUG/daemonsContent_debug.gba	CONTENT (testing build)	f0d5b94e99cd1de1de9861468dc83a41a8544d3
DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	4f6f89d897284d8cc4762497f115267d28769055

The engine since v11.295.6

- 33573b876 T-376: VERA's tending -- the line before it no longer names the daemon (it read "/235 settles."), and the narration is grey

The design and tools since v11.295.6

- c4623472 T-376 closed (engine); T-321: the gym statue, SAMMY and VERA seen; the walker fights through every routine slot
- e0bca394 ROM release v11.295.6: the SLATE curator's exhibit is 'This exhibit' (T-375)

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: ROM RELEASE/HOW_TO_PATCH.md .

The engine since v11.295.5

- 3692c5404 T-375: the SLATE curator stands upstairs, so his exhibit is "This exhibit", not "The upstairs exhibit"

The design and tools since v11.295.5

- 023c4210 qa: T-321's three lines where they are spoken
- e33c8a5d T-375 closed (engine); T-338 and three of T-321's lines seen; tools/theatre_walk.py, a theatre walker that plans from the map's collision
- 92f4221b T-367, 5 October: night water on Route 12 and the rival in the lab seen; the NOTEBOOK's documents wait on the user's approval
- 75dd1fb6 T-367, the evening run: the credits, the poster, the START menu and the READING ROOM's turn-away seen in the theatre
- b12e7db9 qa: T-350 as built and in the STREAM (v11.295.5)
- cc0f3a9d ROM release v11.295.5: the clock on the trainer card (T-372), CRYSTAL seen from behind (T-350)

<code>DEBUG/daemonsContext_debug.gba</code>	CONTEXT (testing build)	<code>8b128d66b3f4475633e6cfcf29e35ed4b1c79068</code>

The engine since v11.295.4

- `b5dc7f8de` T-350: CRYSTAL seen from behind -- the fox head and ruff on every throw frame, as approved
- `2fb8bde68` T-372: the trainer card shows a clock beside the day when the cartridge's real clock drives the time (the user's choice, A with a clock); nothing there when time comes from play

The design and tools since v11.295.4

- 81eaa1e9 T-350 closed: CRYSTAL's back built in by genmentors.py (engine b5dc7f8de) and seen in the STREAM
- 76478435 T-350: CRYSTAL's back drafted -- the fox head and ruff from behind on every throw frame -- and shown for the user's approval
- 1d764d2c T-372 closed: the clock beside the day on the trainer card
- 1f1cbc95 T-337: the singing fir's star seen twinkling on a screen (gold, the light, the glint), the last unseen piece of the 2026-10-02 evening goal
- a992efcc gitignore: T-350's drafts, drawn over the original's frames, stay local
- b871c673 T-350 started: CRYSTAL's back redraw has its direction (drafts kept out of git: they were drawn over the original's frames)
- 509f2d00 T-372: the clock mark mocked on the real trainer card -- three options for the user (a symbol or a word beside the day, or a symbol on the TIME row)
- c37c316f T-369 closed: check_reach.py runs trap 17's registration check every time -- a palette tag registered in two slots that vanilla does not split fails, the player's forms and the daemon type tags excepted with why; proved on a planted split
- b93d24a1 T-368 closed: the field-test page's 116 pictures are published files, the page 327KB (was 10.9MB)
- 49961c69 qa: the user's goal on the board (companion C-46, C-49)
- 21e3bbbe ROM release v11.295.4: the game unchanged; the companion grew its goals of milestones, remotes and networks taught to the daemon, and its first iPhone app

Patches

The engine since v11.295.3

- *nothing: the same engine commit as the release before*

The design and tools since v11.295.3

- feb1e5eb qa: a step done and undone on the board, and FLARE's remotes (companion C-49, C-51)
- f9ddfcc1 ROM release v11.295.3: the game unchanged since v11.295.2; the companion's exports grew (growth, base stats, natures, seen copies) for its INDEX, OPUS's margins, meetings and coming home grown

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: ROM RELEASE/HOW_TO_PATCH.md .

DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	47be5b3043fad594377ebd7d45324595a5c31c02

The engine since v11.295.2

- *nothing: the same engine commit as the release before*

The design and tools since v11.295.2

- 6e0fd9c9 qa: the daemon at home and its CARE menu, from the board (companion C-13, C-42)
- 96d5f417 companion_export: base stats and the nature table, so a daemon that grew on the companion comes home with the stats the game would give it (companion C-45)
- ea8879fe companion_export: SaveBlock1's seen1 and seen2, so the companion marks a daemon seen the way the game believes it (companion C-15)
- c72977b6 companion_export: each species' growth rate, so the companion reads a boxed daemon's level from its experience (companion C-24, OPUS's margins)
- d9b08320 qa: the handheld's four screens, captured from the board (companion C-36, C-37)
- 11e7f953 CLAUDE.md: the companion's updateCompanion.sh and linkCompanion.sh
- af296e94 qa: T-349's iguana and C-29's settings, filed with the v11.295.2 push
- ba078a1c ROM release v11.295.2: the companion's link and emergency return (T-370), the lemur on every CHECKPOINT 2F (T-371), the iguana that reads as one (T-349), and only a well daemon goes AWAY (T-374)

DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	47be5b3043fad594377ebd7d45324595a5c31c02

The engine since v11.295.1

- 4a5895b45 T-374: only a daemon in full health goes AWAY, and an AWAY daemon is out of reach
- 7399b38ea T-349: the catching lesson's old iguana reads as an iguana -- a spiked crest on the crown and a blunt snout (tools/genmentors.py)
- 2ae2997b1 T-371: a lemur on every CHECKPOINT's second floor tells you about the companion, and that it brings SEND
- d1ab256d0 T-370: AWAY reshaped -- SEND only for a save the companion has synced, one daemon at a time, and an emergency way home

The design and tools since v11.295.1

- 6f574f33 T-349, T-371, T-374 closed: the iguana that reads as one, the lemur on every second floor, and AWAY's health and reach rules
- d4b5cd39 companion_export: items.json, for what an AWAY daemon holds (companion C-31); T-374 decided: AWAY needs a healthy daemon, and an AWAY daemon is out of reach
- f1f92029 genmentors: the iguana's crest and snout (T-349); check_reach knows FLAG_COMPANION_LINKED is the app's to set (T-370)
- b9add7cb T-370 closed (engine d1ab256d0): AWAY reshaped; T-373 closed: the companion's words kept matching (companion_export --check in the push routine)
- c106628f ROM release v11.295.1: the OWL in CALLOW SCHOOL's colours (T-366)

Patches

Apply one to the ROM it names, in any BPS patcher (Rom Patcher JS works in a browser). Each checks the ROM's CRC and refuses the wrong one. Step by step, with every checksum: `ROM_RELEASE/HOW_TO_PATCH.md`.

DEBUG/daemonsContext_debug.gba	CONTEXT (testing build)	d95d8545fa0eb59d36ef85db9f005e811a4189d4

The engine since v11.294.10

- 8611a35b3 T-366: the OWL wears CALLOW SCHOOL's colours -- a green waistcoat with yellow buttons (tools/genowl.py)

The design and tools since v11.294.10

- e64b39a5 T-366 closed (engine 8611a35b3): the OWL in CALLOW SCHOOL's colours
- 633ecfae companion_export: the PROFILE's offsets (global.h, flags.h through the preprocessor) and every map's place name, for companion C-23
- 84895d3f qa C-20: the companion in each day's theme
- 6c41283e v11.295: AWAY reshaped by the user (one at a time, SEND once the companion knows the save, an emergency way home) and the clock on the trainer card; T-370 to T-373; answers on T-349, T-350, T-356 (margins approved), T-359, T-265
- 1f726444 CLAUDE.md: the companion is public, and bindCompanion.sh starts it (C-12, C-19)
- 8bf0b2fd T-366 decided (the OWL in CALLOW SCHOOL's colours, the user's choice C); T-367, T-368, T-369 for the morning run
- f9b7cbb1 ROM release v11.294.10: the OWL's own colours (T-365); his note approved (T-364)

The design bible's own entry for v11.295

v11.295 — 2026-10-04

AWAY reshaped, and the clock on the trainer card (2026-10-04)

- *9.25, the user's answers (T-370): one daemon at a time; SEND only once the companion's first SYNC has flagged the save, and the CHECKPOINT's second floor talks about the companion; an emergency way home in the game, with a warning, so a daemon is never stuck when the app cannot be reached; and the companion married to one save, so a daemon only goes home to the game it came from (the companion's PLAN 3). The menu's words stay OPEN.*
- *9.25 (T-372): the trainer card marks whether the real-time clock is on.*
