CHAPTER 1

What DAEMONS is

A game about a world where the machines came alive. They grew into creatures called **DAEMONS** (say it *DEE-muns*), and everyone you meet is an animal. You are a **USER**: you travel with DAEMONS, make friends with them, and keep a record of every one you meet, called the **INDEX**. Eight town leaders test you along the way; pass a test and you earn a **MARK**, like a badge.

The game never stops to explain itself: its stories are there for you to piece together, at your own pace. It comes in two editions, **CONTENT** and **CONTEXT** -- one story, told two ways. Somewhere in the world are two books to find and read, **THE PROGRAMMER'S GUIDE TO THE HUMAN MIND** and **THE SUBTLE LAYER**.

> *And some players whisper about a third.*

Getting it going

DAEMONS is made by fans, so it is not sold in shops, and it is made from a copy of a game you own. **The first time, ask whoever gave you this to set it up.** Then:

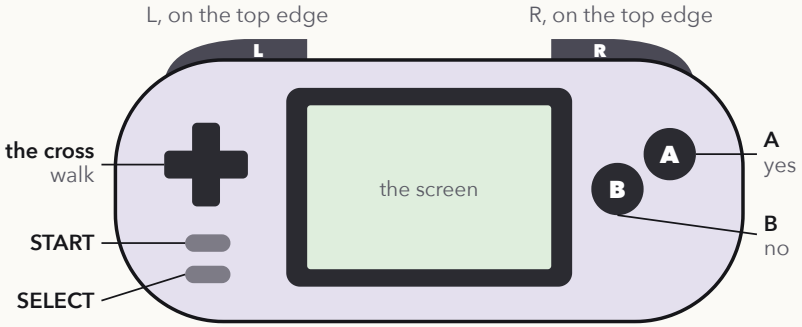

- **On an iPad or an iPhone**, open the DAEMONS app. On an iPad turned on its side, the game is on the left; on an iPhone, tap **GAME**. Touch the buttons drawn on the screen.
- **In a web browser**, open the playground address you were given, choose **CONTENT** or **CONTEXT**, and press **PLAY**. On a computer the arrow keys walk, **X** is A, **Z** is B and **Enter** is START.

CHAPTER 2

The buttons

A means **yes**, and B means **no**. Everything else follows from that.

button	what it does
the cross	walks you about; moves the pointer in a list
A	yes; talk to someone; read the next line
B	no; go back; close a menu
START	opens the menu: SAVE is in it
L R	help, outside a battle

Where each one is, on a Game Boy Advance. On a phone or a tablet, they are drawn on the screen.

CHAPTER 3

Playing

1. **Start.** Choose **NEW GAME**. CRYSTAL CLEAR, a scientist, says hello: press A after each line (a small red ▼ means there is more). She asks whether you follow **REASON** or **INSTINCT** -- there is no wrong answer -- and then your name.
2. **Walk and talk.** The cross walks; walk into a door to go through it. Face someone and press A to talk.
3. **Your first DAEMON.** In CRYSTAL CLEAR's lab, choose one of three. Any of them can go all the way.
4. **Battles.** In long grass, a wild DAEMON (the game says **UNBOUND**) may jump out. Choose **ROUTINES**, then a routine, with A. The green bar is health: empty theirs to win. **DETACH** runs away. A DAEMON whose bar empties has **HALTED**, and needs a rest.
5. **New friends.** Weaken a wild one, then choose **POOL** and offer it a **USERBOX**. If it stays in the box, it is yours: that is **BINDING**.
6. **Rest.** In a **CHECKPOINT**, talk at the counter and answer **YES**: every DAEMON is well again, free.
7. **Save.** Press START, choose **SAVE**, answer **YES**. The game never saves by itself. Next time, choose **CONTINUE**.
