The engine since v11.297.3

- 5301eb7b5 T-394: a debug game starts as a normal one does, and DEBUG -> GAME EVENTS hands the kit out a piece at a time, in story order -- a scrolling list (daemons_debug_events.c), each row + held or • not, A giving or taking: EVERYTHING (the old kit, exactly), the ROSTER, EVERY DAEMON, the STOCK, the OPENING, shoes, INDEX, OPUS, MARKS (a page, each leader beaten or not), the NOTEBOOK (empty, or every page), the school, the ticket, the DRIVERS (a page), TEA and BRAZEN's gates, REVEAL, the RESOLVER, the INTERRUPT, every GOTO point, the GUIDE, the GLOBAL INDEX, the UNDERSTANDINGS (a page, each with what it needs; and the insights let arrive again), STREAM and HEARSAY, the companion's link. The kit is in pieces in new_game.c; SONG and SFX moved to a SOUND page to make room on DEBUG's first.

The design and tools since v11.297.3

- e9fe3b1d T-394 done (engine 5301eb7b5): a debug game starts with nothing, and DEBUG -> GAME EVENTS gives or takes each piece in story order; CLAUDE.md says so
- 3929d57c ROM release v11.297.3: the splash's bits and notes in battle, drafted on the debug ROMs (T-392)

The engine since v11.297.2

- 4e48916d0 T-392 (DRAFT, debug ROMs only until approved): the game's signature in battle -- the splash's 0, 1 and notes as particles (ANIM_TAG_DAEMONS_GLYPHS in the splash's own colours, ANIM_TAG_DAEMONS_INK grey and shaded into a routine's type by AnimTask_DaemonsInk; one sprite, seven paths: stream, rise, fall, ring, converge, sweep, return). The seven union routines get their own scripts carrying both, in the splash's colours (FLUENCY's line read twice, STILLPOINT's rings, RECONNECT's broken line, PRAXIS rising, MEDIAN converging, PANORAMA's sweep, HINDSIGHT going back first); 141 routines of the chart's two sides re-drafted by genanim with bits (CONTENT, LOGIC, STRATUM, LEGACY) or notes (CONTEXT, LATENT, VECTOR, ENTROPY) in their type's ink. The release ROMs keep the approved scripts until the user approves these.

The design and tools since v11.297.2

- cc145135 T-392 drafted (engine 4e48916d0): the splash's bits and notes in battle -- the seven union routines' own effects, and 141 routines with bits or notes in their type's ink; genanim's learned GLYPH_FAMILIES and --glyphs. Debug ROMs only until approved.
- 7cf1db2f ROM release v11.297.2: wisdom -- the leaders and their roots, seven union PLUGINS, INSIGHT (T-389, T-390)

The engine since v11.297.1

- `b48740f91` T-389, T-390 (DRAFT): wisdom -- a MARK and its ROOT together (bible 0.7). Seven leaders, talked to after the win, say what their MARK taught and where to come back understanding, or, with it held, what the two make together, and hand over the union routine's PLUGIN once (CAIRN/SCHOOL FLUENCY, BASIN/FIRST STILLPOINT, GAUGE/RETURN RECONNECT, TRELLIS/GUIDE PRAXIS, TILT/SCORN MEDIAN, MATTE/READING PANORAMA, ANNEAL/NOTES HINDSIGHT). The seven are new routines 357-363 on vanilla effects; PLUGINS 05, 10, 21, 32, 37, 43, 45 are repointed to them and any daemon can learn them (their old learnset bits gone, their old item balls, mart stock and Pickup slot given other items). An insight arrives on the first step once a MARK and its understanding are both held, and is filed in the NOTEBOOK's new INSIGHT section. The words come from DAEMONS docs/wisdom.json through tools/gbawisdom.py; animations are their type's placeholder until T-392.

The design and tools since v11.297.1

- `064a6aed` T-389, T-390 done (DRAFT; engine `b48740f91`): the seven leaders and their roots, the union PLUGINS, INSIGHT -- docs/wisdom.json and tools/gbawisdom.py, the wisdom theatre route, genanim files the seven as borrowed scripts until T-392, check_reach reads flags set through a table; bible: FLUENCY is LEGACY, INSIGHT keeps the MARKS' order
- `b1eae104` ROM release v11.297.1: the manta (T-388) and the PLUGINS' last vanilla words (T-391); v11.296.x sealed

The engine since v11.296.3

- c4d5edf8b T-391 (DRAFT): the PLUGINS' last vanilla words -- 15 routine descriptions written for the game (PROTECT's firewall, SAFEGUARD's safe mode, DISTILL, HOMING, AMBIENT, RIPPLE, DISUSE and RAPPORT by trust, DISCHARGE, TRANSIENT, CARRIER, RADIATE, FLASHOVER, DEGRADED, LIFT) and UNLOAD's own (it printed EVICT's); the help's DRIVER page (holding the DRIVER is enough, not 'destroy an obstacle, fly, surf'), a swimmer's 'surfing type', and the water's 'dyed a deep blue'
- ea05bf16f T-388: TRAVERSE's ride is a manta ray -- six frames drawn by DAEMONS tools/gbamanta.py from a sprite-server draft (seed 3111), in the player's own palette; the wingtips lift on the second frame of each pair, the same wave as GOTO's ribbon

The design and tools since v11.296.3

- 467f51f8 T-388 done (the manta, engine ea05bf16f) and T-391 done (DRAFT; the PLUGINS' last vanilla words, engine c4d5edf8b); T-393 filed: DESCEND never given, two LOCK ONs
- eeefa241c bible v11.297: wisdom -- a MARK and its ROOT together (0.7): seven leaders paired with seven understandings, seven union routines on seven retired PLUGIN numbers, INSIGHT in the NOTEBOOK (rule 2 amended, never numbered); 9.24 amended for the splash's bits and notes; TRAVERSE becomes a manta (the user, 2026-10-08)
- c9929aa8 T-388..T-392 filed: TRAVERSE's ride, the leaders and the ROOTS with their union PLUGINS, INSIGHT, the PLUGIN audit, the binary-and-music animations (the user, 2026-10-08)
- fe681223 ROM release v11.296.3: GOTO is not a bird (T-387)

Wisdom: a MARK and its ROOT together (2026-10-08)

- **0.7, Wisdom (the user's decision, T-389, T-390): intelligence and understanding together are wisdom.** *Seven leaders each pair with one understanding (five by the map, two by type; SCORN with none): talked to after the win, each says what the MARK taught and where to come back understanding, or, with it held, what the two make together, and gives that pair's union routine on a PLUGIN. **Seven new routines on seven retired PLUGIN numbers (PRIOR, UNLOAD, INSTANCE, PAIR, AMBIENT, DISUSE, BIT ROT), because the TOOLKIT's slots are in the save. An insight arrives when both are held and is filed in a new NOTEBOOK section, INSIGHT -- rule 2 amended: it grows, never numbered.***
- **9.24, amended (T-392): routines may carry the splash's bits and notes, in their type's colour (binary on the CONTENT side, notes on the CONTEXT side); the seven union routines alone wear the splash's own colours.**
- **TRAVERSE (T-388):** *the water ride, still vanilla's shape, becomes a manta ray whose wings ripple like GOTO's wave (the user's pick).*
