The design and tools since v11.305.2

- `d00d053d` T-392 P2: every routine signed in release, every glyph outlined (engine 28184cef2)
- `b4a8ed03` Wiki: Books -- THE PROGRAMMER'S GUIDE TO THE HUMAN MIND and THE SUBTLE LAYER: what each is, its cover, its chapters, and a link to the one file both the game and the companion are built from (never where they are found); in the sidebar, and linked from The companion
- `0794c1dc` T-423: the companion's book carries the week's note names as words (the staircase picture is unlettered: the game's font is Nintendo's)
- `02281373` TODO: T-392 P1 released; P2 and the glyph outline (the user)
- `4670b198` companion: the GUIDE's cover without its lettering (the game's font is Nintendo's; the app sets the title and author, now in guide.json) -- the user, 2026-10-18
- `d844cfc4` T-423: in the game (v11.305.2) and the companion's LIBRARY; the layout-order lesson recorded
- `de6980a2` T-423: companion_export writes THE SUBTLE LAYER for the LIBRARY -- subtle.json and art/subtle_*.png (the game lane's agreement: this function and its two outputs only)
- `15306f32` TODO: T-427, what the house keeps goes to CORPUS (the user, 2026-10-18; the companion's half is C-167)
- `efbe97aa` ROM release v11.305.2: THE SUBTLE LAYER (T-423, merged), its layout at the end so older saves open where they were
