- `66d14f774` T-381: artificial flowers -- 84 FOUNDRY plants with a tag not to water them, SCORN's two the finest, 19 CHECKPOINT plants real (DAEMONS tools/gbaplants.py; approved by the user 2026-10-11)

- `19b0e42d` T-400 logged: a real GitHub wiki for DAEMONS (the user, 2026-10-11) -- public writing, so never the four in SECRETS; waits on its first page
- `3e59c120` T-399 struck (engine 94e5b57f2): the mart opens on kinds of thing, played at LAVENDER's counter (qa 11Oct T399); tools/routes/t399.json replays it
- `0f03a9f0` T-398 struck (engine ad0ea82e0): GAME EVENTS waits for a fresh press, and EVERYTHING asks first; T-399 opened: the mart's kinds of thing
- `d12a37ac` T-395: every NEXUS connection played in the theatre -- the pier's fir in, all fourteen doors out and back (qa 11Oct T395 1); the route walker treats two objects on one tile as one place, whichever is shown
