- `8ccf66d3` Bible v11.326: Al after the REVIEW BOARD, a plateau with one crack (T-487); a stale Open question struck
- `6feab0c4` T-481 A: gbabattlebg.py --write --approved (the battle calendar's tables into the engine), check_generators runs it with --approved, and the theatre route that films it

- `330ace6c` manual: BOOKS -- the two books side by side and the GUIDE's margins; THE HERMETIC LAYER as a rumour, with its real history (never where or how) -- the user, relayed by the README/wiki session; qa 29Oct2026 T467 37-38
- `050d58fb` README and wiki: the newest release is v11.325.1
- `57abc41d` manual: rebuilt for v11.325.1
- `15ffc999` ROM release v11.325.1: T-483 THE HERMETIC LAYER in the game (the book, its unlock, the world's breath, the handless clock, Halloween's costume); T-482 the battle's ground breathes; T-486 the only glitch; v11.322.x sealed

The design bible's own entry for v11.326

v11.326 — 2026-10-29

Al: a plateau, with one crack

- ***Al Clear (Open since the start), the user by multiple choice*: after the REVIEW BOARD he stays the incumbent, and once, late, nearly notices** -- "*...It was wrong about that. / Probably a rounding error.*" (DRAFT). No arc, no rescue. T-487.
- ***Open log***: "Does the player meet Scorn before Halftone Tower?" struck -- 8.6 had settled it (the Verdigris basement).
